

THE TRUCK TRANSFORMER

with the

MOTORHOME BODY!

VERSATILE AND USER FRIENDLY

DIVERSIFIES YOUR TRUCK – DIVERSIFIES YOUR TRUCK BODY!

COST SAVINGS

- One chassis can be used as a hybrid motorhome, for pleasure and several work related jobs efficiently.
- Eliminate a second or seasonal vehicle.
- Lowers capital costs
- Lowers depreciation costs.
- Lowers insurance costs.
- Lowers maintenance costs.
- Mileage accumulates on one vehicle making it feasible to purchase a more fuel efficient vehicle.
- Eliminates the need to tow a car

The Truck Transformer loading system fits most 2 & 4 wheel drive, current day Ford, Dodge & GMC 350(3500), 450(4500) and 550(5500) cab & chassis Trucks. The loading system is transferable when upgrading allowing you continued use of your existing truck bodies. Loading capacity of 11,000 lbs.

FEATURES OF THE HYBRID MOTOR HOME (H.M.H.)

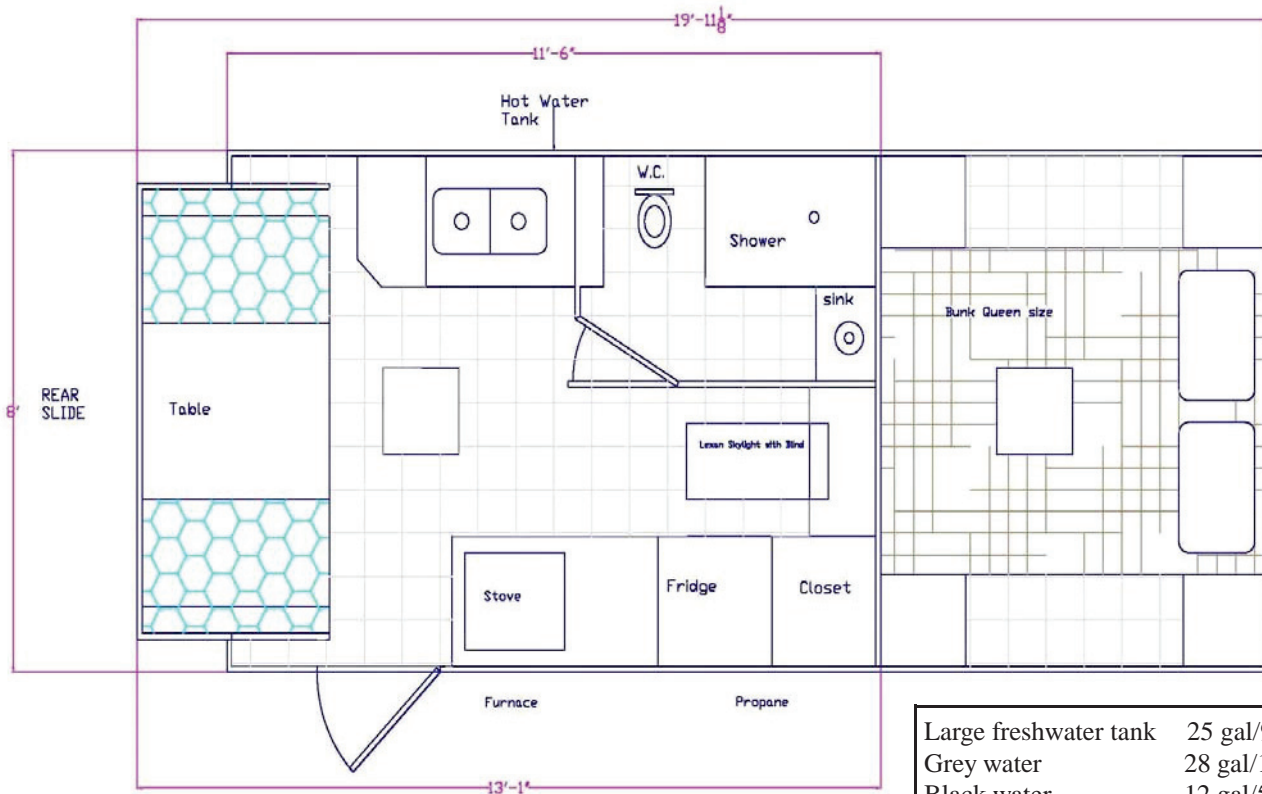

- Very spacious unit -
- Choice of a 4 x 4 vehicle allows off-road camping. High ground clearance.
- Toggle control 3 minute off-loading/ on-loading.
- The Motorhome can be off loaded directly to the ground allowing for easy one-step access.
- Large washroom with shower/tub, wash basin and lavatory.
- Excellent vehicle handling characteristics with side roll eliminated due to the weight distribution. The hot water tank, propane tanks, batteries, fresh and black water tanks are at floor level with the grey water, storage compartment, 700 lbs. steel H.M.H. frame, and the Truck Transformer 400 lbs. loader system below the floor.
- Hybrid Motorhome dry weight - 3400 lbs.
- The towed car is eliminated. The Transformer chassis is road legal when equipped with auxiliary mudguards and tail lighting and can be used for touring and rides as comfortably as a regular pick up.
- Tonneau cover or load straps enable the chassis to carry a load when not hauling the motorhome body.
